FAQ:

1. How much power do I need to order?

Answer: You will need to check the electrical tag/sticker on each piece of equipment to determine the actual wattage or amperage required. Please feel free to contact the Commonwealth Electric Account Manager for your event if you need assistance.

2. How much power will I need to order for a laptop?

Answer: You may power up to three (3) laptops per 500-watt outlet ordered.

3. How much power will I need to order for lighting?

Answer: Please add up the wattage of each lightbulb to determine total amount of wattage needed to order. Example: Four (4) sixty (60) watt lightbulbs would total two hundred forty (240) watts. You would need to order a 500-watt outlet to power these lights.
